PROJECT DESCRIPTION

Use the given text and photos to create a 4 page article for a magazine. You will be provided with the article and design 2 spreads for the article. The design needs to use ALL of the text and choose how to use the images to create an effective overall design.

The images supplied can be manipulated as far as color correction and cropping, and manipulated in photoshop, but not required. For this project all the text needs to be used, but can be in the typeface of your choice as well as how it is arranged.

Design: Read the article and think about what the article is trying to convey and how the images provided fit with the article. Any typeface can be used as long as it matches the article.
